The learning model in this class is an effective way for students to grasp the material.
The learning experience of this class is pretty good. Although the professor is a new professor here, he tried his best to help students.
In class notes could be a little better, but content is good.
I felt as if the class was executed very well. The in class lectures were very helpful when it comes to understanding the material that is introduced to you. Additionally, I do not normally attend office hours in most classes, however, the office hours, and the flexibility, were incredibly helpful. The exams were also, for the most part, similar to the homeworks which is a pleasant change compared to most other Econ courses.
